

HATTIE LE BLANC HURT BY STORY

Attorney Gains First Damaging Evidence Against Little Prisoner.

CAMBRIDGE, Mass., Dec. 2.—The first damaging testimony against little Hattie Le Blanc was given at her trial for the murder of Clarence F. Glover today by Attorney Samuel D. Elmore, who acted as counsel for Glover's widow after her husband was killed.

He testified that when the little French girl was found in hiding in the Glover home three days after the tragedy, there was upon the forefinger of her right hand a black mark about the size of a little finger nail. This was surrounded by small black dots. It is the contention of the state that this was caused when the girl shot Glover and the black dots were powder, though nothing was brought out today as to what caused them.

When Mrs. Elmore was recalled to the witness stand he told about the scene of the murder, the day after it took place. He quickly got into trouble with Lawyer Johnson of the defense for answering questions when they were objected to, and Judge Bond warned the witness to be careful.

Almost Mobbed.

Mrs. Glover was in the sheriff's office for some time this morning. It was learned today that a detective had followed Mrs. Glover from the court house yesterday to Waltham, shadowing her every act. She was almost mobbed by a crowd that was eager to get a look at her, and had to call a policeman to assist her.

The authorities would not admit that Mrs. Glover was practically under arrest today.

A great crowd gathered early today to fight for entrance to the trial of Hattie Le Blanc, who is charged with Glover's murder.

Of great equal interest, it was expected, would be the cross-examination of Attorney Samuel D. Elmore, who resumed the witness stand today. Elmore has figured prominently in the Glover affairs since the tragedy. Mrs. Glover testified that she paid him \$4,153 a few days after the murder. She could give no reason for the payment for the money further than that he said he needed it.

Many Women in Line.

The fact that some of the women at yesterday's session left the court room with burning cheeks at some of the testimony did not prevent a great line forming today shortly after daylight, women being largely in the majority.

The trial is attracting the widest attention because of the dramatic developments and the youth of the accused. Hattie Le Blanc looked more cheerful today than on any day since the trial began. She smiled, showing rows of white, even teeth.

One thing was noticeable—that her eyes and the eyes of Mrs. Glover, her former employer, never met so far as close observers could tell while Mrs. Glover was in the court room.

ASKS HIS FRIENDS TO FORGIVE FAULTS

Will of W. F. Gatchell Makes Novel Request—Estate to Widow.

"To all my friends I leave good will, and request them to forgive my faults and cherish the good they have known in me. I forgive my enemies if I have any."

This unique clause is contained in the will of William F. Gatchell, which was filed in Probate Court today. Mr. Gatchell was an employee in the Department of Commerce and Labor and died November 15.

Dr. C. C. MacLeod, pastor of the First Presbyterian Church, who was a witness to the will, stated today that so far as he knew the clause bore no reference to any incident in Mr. Gatchell's life.

By the terms of the will Mr. Gatchell's wife, Mrs. Jennie Dixon Gatchell, will receive the bulk of the estate, which is worth about \$2,000. It is provided that on the death of the wife, the two daughters, Margaret and Rachel Gatchell, will inherit the estate.

PANIC IN HOTELS CAUSED BY BOMB

Guests Awakened by New York Explosion Flee to the Street in Night Robes, But Only Thing Wrecked Is Grocery Store.

NEW YORK, Dec. 2.—Occupants of two hotels were thrown into a panic today when a bomb was exploded and wrecked the grocery store of Frank Cuomo & Bro., 581 Tenth avenue.

John Flannery, a milk driver, who noticed a small blaze in a bread box on the pavement, and investigated, was badly hurt. He had nearly reached the infernal machine when it blew up. The explosion terrified the sleeping occupants of the Elwood and Fulton Hotels, and they rushed to the street in their night garments.

Following the explosion fire broke out in the store, and was extinguished with great difficulty. Cuomo said that he was at a loss to explain the meaning of the attack, as he had no knowledge of any enemy.

Improvements, including the purchase of new machinery, and extension of the plant, to cost \$60,000 are asked to be provided for in the appropriations for the fiscal year ending in June, 1912.

CHICAGO, Dec. 2.—A strike of 450 department store delivery drivers is threatened today because the Merchants Association declined a demand for higher wages.

It is not believed the strike would result seriously even if a general call was made, as the teamsters are divided into two rival organizations, and the furniture and express drivers union will not go out in sympathy with the department store drivers.

WHEELING, W. Va., Dec. 2.—John O. Schenk, the millionaire packer, who has been in a local hospital for more than a month recovering from the effects of poison said to have been administered by his wife, has recovered sufficiently to leave the institution, and to be removed to his home.

Your Teeth Need Treating

Have you ever stopped to realize how important a part your teeth plays with your general health? Do you know that out of the 73 applicants who were refused admittance to the U. S. Military and Naval Academies last year, 57 were turned down directly or indirectly because of defective teeth? There's much food for thought in that. How about your teeth? Those decayed and aching teeth you have will cause you lots of trouble and shatter your health if not treated at once.

I am the man who invented Painless Dentistry. I treat your teeth scientifically, making Extractions, Fillings, Bridges and Crowns without causing you the least pain whatever. All the dentist work I do is strictly high-class, but my prices are the lowest in Washington.

Most dentists charge you entirely too much for their work. I don't. I have an established reputation for first-class work, low prices, and honest dealing, and all my work is positively guaranteed. See me today.

HELD FOR THEFT OF TWO DIAMONDS

Edward M. Davidson Is Charged With Taking Valuable Earrings.

Charged with the larceny of a pair of diamond earrings, valued at \$200 from James E. Thomas, manager of the Union Station Cafe, who lives at 81 V street northwest, Edward M. Davidson was arraigned in Police Court before Judge Mulowny this morning.

Acting on the advice of his counsel, Davidson, whose home is in Clarendon, Va., waived the preliminary examination, and was held for the action of the grand jury on a bond of \$1,000.

Davidson was employed at the Thomas home a few days ago to take down the awnings, and shortly after he left, it was discovered that a pair of valuable diamond earrings had also disappeared. When arrested and accused of the theft, Davidson protested his innocence, but the police claim that the jewels were found in his pocket.

OFFICIALS PRAISE LOCAL NAVY YARD

Improvements for Washington Plant Asked for in Annual Report.

Commendation for the work of the Naval Gun Factory at the local Navy Yard, is included in the annual report of Rear Admiral N. E. Mason, Chief of the Bureau of Ordnance, United States Navy.

This work has included a wide range from the design and manufacture of turret guns and mounts, to repairs upon the most intricate parts of mechanism. During the last year, the work has been carried on under the direction of Rear Admiral E. H. C. Leutze, retired, and Capt. F. E. Pearty, who succeeded Admiral Leutze April 1, 1910.

Following is the summary of the work of the factory: Guns completed, 187; guns partially completed, 202; guns rebuilt, 16. Mounts for recent battleships to the number of 971 were made and miscellaneous parts and mounts were constructed. Forgings to the number of 125,000 were turned out, with 2,584 large caliber shells. Total expenditures for the year were \$1,000,317.

Improvements, including the purchase of new machinery, and extension of the plant, to cost \$60,000 are asked to be provided for in the appropriations for the fiscal year ending in June, 1912.
